

Register with an invalid email

Description:

A new user can create a new account using an invalid email.

Registration is possible with an invalid email such as :

1. testing01@.com
2. testing01@t
3. testing01@gmail

Environment:

1. Windows 10
2. Chrome Version 120.0.6099.225

Preconditions:

1. Open the Application (<https://openweathermap.org/>) in Chrome Browser.

Steps to reproduce

1. Click on 'Sign In' on the top home page menu (Verify ER-1)
2. Click on 'Create an Account' (Verify ER-2)
3. Enter new valid Account Details (Username, password, repeat password)
4. Enter an invalid email such as "myemail@.com"
5. Click 'I am 16 years old and over'
6. Click 'I agree with Privacy Policy, Terms and conditions of sale and Websites terms...'"
7. Click 'I'm not a robot'
8. Click "Create Account" (Verify ER-3)

Expected result

1. The user should be taken to "https://home.openweathermap.org/users/sign_in"
2. The user should be taken to " https://home.openweathermap.org/users/sign_up "
3. A red warning message "Email is invalid " should be displayed at the top of the page.

Actual Result:

1. An account is created with an invalid email.
